

Writing Exponential Functions

Write the exponential equation for the given description.

1. Initial value = 6, common ratio = 2

2. Initial value = 1, common ratio = .5

3. Points (0, 7) and (1, 21)

4. Points (0, 9) and (1, 3)

5. Points (0, 12) and (1, 9)
